# Direct and Manual Fastening Systems

**100** years
1919-2019

**RAWLPLUG**®

## All around the **world**

**1887** Rawlings Brothers Starting a small electrical engineering company in London., UK.

**1911** The world's First expansion plug John Rawlings invented and patented the first wall expansion plug.

**1919** Rawlplug Company Ltd Changing the company name to Rawlplug Company Ltd.

**1930** Rawlhammer. The world's first patented hammerdrill.

**1980** Safety Plus. Heavy duty expansion anchors.

**1998** ETA Certification Rawlplug became the first UK manufacturer with ETA.

**2002** Stapling, Tacking and Gluing High efficency for site and DIY work.

**2005** UNO® Plug. No.1 expansion plug in the UK. Simplicity and outstanding performance combined.

## **Knowledge**
& competence development

## From **London** to **Mars**

**1934** Rawlbolt. The world's first mechanical anchor, patented by Rawlplug.

**1941** Rawlnut Shock and vibration proof fixing device. Spring Toggle . The world's first metal anchor for drywall.

**1948** Rawlanchor World's first cavity interset fixing.

**1969** R-OLD Launch of production of plastic expansion plugs in Glasgow, UK.

## **Products**
for each sector of the construction industry

**2006** EasyFix. Professional calculation software.

**2007** CFS + Cartridge Free System. Cartridge free system for bonded anchors. Less waste and high performance.

**2009** Direct Fastening Systems. For safer and quicker onsite jobs. HPT & XPT. New line of HPT and XPT Throughbolts.

**2010** Bonded Anchors. Cartridge system for bonded anchors. No.1 expansion plug in the UK. Simplicity and outstanding performance combined.

The evolution
of the perfect
# Rawlplug

2011 FF1 Frame Fixings. Best installation performance for use in all base materials.
2012 Sustainable Rawlplug. Our policy inauguration.
Foams, Sealants & Adhesives. Wide variety of products for any application.
2013 TFIX Facade Fixings. For energy-saving building industry.
Power Tool Accessories. Innovated accessories you can really trust. 4ALL Universal plug for all substrates.
2014 Passive Fire Protection System. Providing safety in critical applications.

# Expert
in fixings,
fasteners and tools
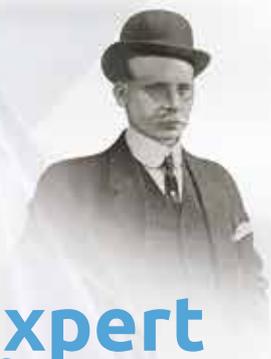

2016 POS. Point Of Sale Exposition System,which sells itself.
2017 BIM. Building Information Modeling.
2018 Rawlplug Academy Expand your knowledge and improve professional skills.
R-KER II. Bonded Anchor, Hybrid Resin.
2019 Celebrating 100 years! I⊘RAWLPLUG® Anniversary.

**100 years
1919-2019**

**I⊘RAWLPLUG ®**

2019 is a very special year for Rawlplug brand. Already upon the conception of the Rawlplug brand in 1919, John Joseph Rawlings dreamt of making it the global brand of first choice. But he couldn't have suspected that 100 years later the portfolio of our investments would include London's Wembley Stadium, the Cape Town Stadium, the Yas Marina Formula 1 circuit, Dubai's Burj Khalifa Tower, the Olympic Park in Sochi or the Grand Egyptian Museum in Giza. He couldn't have possibly imagined that Rawlplug's DIN 7984 bolts would be used to build the Curiosity rover exploring the planet Mars under the Mars Science Laboratory project.

And by no means could he have conceived that our manufacturing plants would daily ship products to more than 70 countries all over the world. While we still consistently pursue his vision by designing our selection of products and services in a way which proves that Rawlplug knows and understands its customers. Because Rawlplug stands by them, day by day. Rawlplug supports and communicates with them, sharing know-how and experience. Rawlplug provides customers with **products, highly specialised services and innovative training courses – the 3 pillars of the offering** which matches even the most challenging tasks tackled by professionals.

Get more information about Rawlplug's 100th anniversary on **rawlplug.com**

# Services

**Our entire team** is composed of actual experts in the field of fixing solutions. They are industry professionals with many years of experience in the vast area of construction engineering who have spent their whole professional life in close proximity of clients, never waiving any challenge at hand. The close collaboration and experience exchange between designers, contractors, sales-people and the international Rawlplug team turn the solutions we propose into genuine advisory. What's more - all services offered by Rawlplug are free of charge.

**BIM**

**EASYFIX**

**Technical library and product selector**

**Technical assistance**

**www.rawlplug.com**

## Tools **for designers**

Our portfolio comprises a set of complementary services and tools matching our products that, on the one hand, will make it easier for you to choose suitable fixing solution and design them correctly, and on the other hand, provide you with the information you will find indispensable for the future use. You are welcome to use:

### EasyFix

Our original application dedicated to engineers and de-signers. This simple, yet multifunctional tool enables you to run calculations and develop designs using Rawlplug fixings. EasyFix is a guarantee of reliability and safety, since both the program itself and the calculations it deliv-ers conform to the standards defined in European Techni-cal Approval Guidelines (ETAG).

### ON-LINE APPLICATION

**BIM**
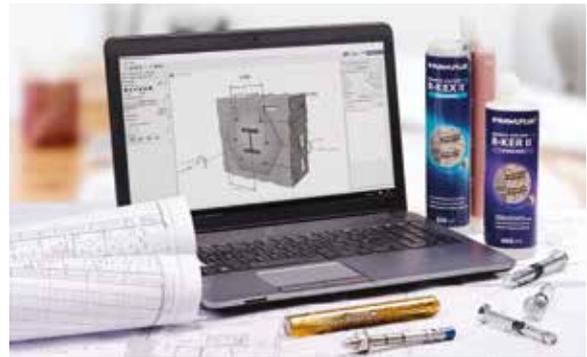

An on-line application containing a comprehensive port-folio of models, plan views and technical drawings of Rawlplug fixings along with their full technical documen-tation. It enables you to use all of them in some of the most popular BIM/CAD environment software packages.

### PRODUCT SELECTOR

Designed to make the choice of products matching your design's requirements easier and quicker. It is here that you can quickly view the full portfolio of criteria - from the type of substrate, a recommended application, approvals and certificates, materials and coatings, environmental con-ditions to an indication that a product is new in our offer. The presentation of each product includes a set of photos, drawings, technical models, video tutorials, data sheets, approvals and so on.

Fixings & Fasteners Selector

### TECHNICAL LIBRARY

Contains technical documentation of products divided into as many as 15 categories. All you need to do is enter the name of the product and a list of all technical documents available in our library will appear in the search results.

# **Technical** Assistance

Our team is ready to deliver comprehensive technical assistance. The range of services comprises:

- technical advisory,
- site testing,
- assistance in designing of fixings,
- technical FAQ.

## **TECHNICAL** ADVISORY

Our clients are offered the support of an engineering team from the Technical Department. They are ready to answer all your questions pertaining to the design of fixings, the range of their applications, the installation process or the service of Rawlplug's products. You only need to fill in the Technical Request form on www.rawlplug.com.

## SITE **TESTING**

While running site tests, we make use of our signature standard, designed with reference to the requirements of British Standard BS:8539 as well as guidelines of the British Construction Fixings Association (CFA). It was our team of experts, being members of the Technical Committee, who developed these principles and who provide testing oversight.

## **ASSISTANCE IN DESIGNING** OF FIXINGS

We offer support for the extensive range of fixing design activities. Our team of engineers from the Technical Department is at your disposal. They will answer all your questions related to the design of fixings and their recommended applications. We encourage you to contact our experts on www.rawlplug.com.

## **TECHNICAL FAQ**

Based on our experience to date, and thanks to the regular close relationship with our customers and understanding of the challenges they face on a daily basis, we have developed a list of the most typical issues and areas in the format of easily searchable questions and intuitive answers.
The list of the most frequently asked questions is available on www.rawlplug.com.

# Rawlplug **POS System**

Presentation of Rawlplug's products is based on an integrated display system operating on 3 levels:

- **Point of Sale product display system**
- **labelling**
- **packaging**

What we offer in this scope is innovative across the market and provides us with unquestionable competitive edge. Not only does the POS product display system ensure formal attractiveness, but primarily stands for unparalleled functionality and intuitiveness whenever Rawlplug products are to be chosen from among hundreds of other items available on store shelves. And even more importantly, it supports the consumer in making the right choice.

When designing the POS system, we were guided by principles that reflect the real needs and behaviour of customers at the point of purchase. By that means we have managed to create features that are characteristic only for the Rawlplug product display system:
colour coding, key words, installation guidelines, QR codes, standard display system, customised display system, unique packaging, environmental sustainability

## COLOUR CODING

products intended for specific substrates are marked with specific colours, enabling instantaneous choice of suitable products with this criterion in mind.

## KEY WORDS

in order to describe our products we have used key words that users recognise intuitively, which significantly speeds up the choice of what one truly needs.

## INSTALLATION **GUIDELINES**

simplicity of use is crucial to contractors, and we additionally allow them to quickly read and understand instructions thanks to icons and step-by-step type presentation models

## **QR** CODES

every product packaging features a QR code the scanning of which provides you with access to videos and animations with installation instructions.

## STANDARD **DISPLAY SYSTEM**

we can provide you with complete display systems ready for installation at points of sale, with all the features required to enable making appropriate and quick choice of products in demand.

## CUSTOMISED **DISPLAY SYSTEM**

we also provide you with an opportunity to develop a customised display set based on individual, specific customer requirements, which is possible thanks to the modularity of our solutions as well as their adaptability to any size and layout of a specific shop.

## UNIQUE PACKAGING

for every product, we have developed attractive, ergonomic and comfortable to use unique packaging.

## ENVIRONMENTAL SUSTAINABILITY

our products are manufactured using sustainable technological standards which matter greatly to environmental protection.

# Rawlplug Academy

## Inspired by knowledge & skills

**Rawlplug Academy** is an innovative development project intended for our clients. It is a unique venture across the industry, dedicated to education, competence building as well as knowledge and experience sharing, designed to reflect the actual needs of engineers and designers, contractors and salespeople. What you receive is a single point of access to an integrated training package that will not only help you in everyday operations, but also assist you in the development of your specialisation.

## A state-of- the art knowledge and training platform

**Courses available online – you study when and where you want**

**Varied forms of training**

**Courses designed in accordance with both business and personal needs**

**4 types of training categories:**

courses that develop products and services competences, operating systems skills and legally required courses

**Enhance your knowledge, master new skills**

**Every course concludes with a test**

**www.rawlplugacademy.com**

> ## Under the **Rawlplug Academy**, we perform three types of training activities:

- **Rawlplug Academy's original training courses** devised to reflect the operating needs of our customers,
- **vocational training** courses conducted under prestigious country-specific educational programmes,
- **video tutorials** collected in a library of training videos and animations.

## ORIGINAL TRAINING COURSES

The Rawlplug Academy original training scheme comprises series of specialised courses, soon to be available to our on-line clients as well.

## VOCATIONAL TRAINING COURSES

Being a professional partner who provides clients with integrated education and knowledge sharing services, we extend our Rawlplug Academy related activities by participating in development programmes whose purpose is to expand specialised qualifications and improve field-specific competencies. This is why our experts have become personally engaged in developing training courses and workshops under the Continuing Professional Development scheme and BS:8539.

### CPD Seminars

Specialists representing the Rawlplug team take part in various initiatives, tutoring industry-specific seminars, co-moderating major conferences and events relevant to the sector as well as organising practical workshops aimed at improving participants' competencies in terms of professional choice and applications of fixing and fastening solutions. In this milieu, we collaborate with such parties as the Institution of Civil Engineers (ICE) and the Institution of Structural Engineers (IStructE). Each person taking part in the CPD seminars run by experts from Rawlplug Ltd. acquires qualifications documented with a certificate that proves to be a significant add-on to a professional portfolio.

### BS:8539 COURSES

Rawlplug Ltd. is a certified member of the Construction Fixings Association (CFA). The membership is indeed a prestigious achievement, but it also an obligation. That is why, we organise and conduct seminars and workshops in line with British Standard BS:8539. This means that as we deliver training we always rely on the best available practices. Participation in BS:8539 courses is certified, which enables the participant to formally confirm the qualifications and competencies thus acquired.

## VIDEO TUTORIALS

Based on many years of observations of the processes and activities connected with everyday operations performed by our clients, we have developed scripts for video tutorials. How do they work? We teach you how to choose the best fixing solutions. We demonstrate where and under what circumstances they should be applied. We present how to use them under real-life conditions. And the entire content is delivered in a simple, intuitive and comprehensible manner. You are welcome to use the library of Rawlplug's video tutorials.

## New gas powered
## steel and concrete nailer from Rawlplug

HIGHL
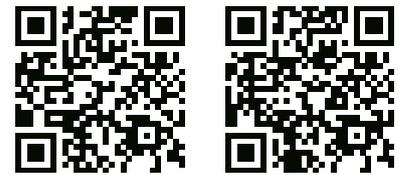

**RAWLPLUG®**

## "INNOVATION

Lithium-Ion power platform provides the highest efficiency and performance. Rawlplug's new Li-Ion system provides 8000 fixings from each battery, rapid charging feature allowing for 200 fixings in just 2 minutes of charging and battery preserving functions like switching the tool into stand-by mode after 10 minutes of inactivity.

## MAXIMUM PERFORMANCE AND VERSATILITY

New depth adjustment mechanism allows for great control over the fixing process. As a result, you get a successful fixing every time. With the lowest weight among gas powered tools, new ergonomic design, ease of maintenance and battery conserving features, it provides great operating experience and performance.

## DURABILITY AND LOW RUNNING COST

Thanks to newly designed dust protection cover, it is much more resistant to damage caused by debris or dust form overhead applications. In fact, the overall damage rate of our new system is reduced by 40% compared to the previous tool, which reduces the running cost. reducing the running cost.

## RELIABLE AND EFFICIENT INSTALLATION

Quick and efficient tool for high volume fixings, especially in drywall and electrical applications. With the capacity of performing a fixing under one second, it is a real boost for efficiency on any job.

# RAWLPLUG® GAS POWERED TOOLS FOR CONCRETE

New generation of gas powered nailer for steel and concrete from Rawlplug is capable of securing round head pins in steel and concrete using a combustion Energy of a gas mixture. The fixing is performed in under one second each. If we combine this with battery efficiency of 8000 fixings per charge and charging time of just 30 minutes, the result is a tremendous improvement in jobsite productivity.

# R-RAWL-SC40 II Gas powered steel and concrete nailer

## High performance gas powered steel and concrete nailer

### Certificate
CE

## Product information

### Features and benefits

- Perfect weight to recoil ratio provides the tool not only being one of the lightest on the market but also improves comfort of daily use.

- Lithium technology accompanied by energy saving features ensures high capacity of the battery pack.

- Simplified depth adjustment design provide the end user with easy but accurate depth of drive control.

- Completely redesigned dust cover protects the internal components and improves durability of the tool by 40%.

- Compact and ergonomic design allows the operator to achieve great accessibility and freedom of operation.

- Detachable magazine and nose piece ensure easy maintenance and jam clearance.

### Applications

- Applicable for fixing steel and aluminium profiles in drywall structures

- Cable conduits and wires installation

- Installation of all types of MEP clips and clamps

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells

- R-KSC plastic collated pins for steel with fuel cells

- R-RAWL-GP5

- R-KIT-WW90/SC40

### Base materials

# R-KNC Plastic collated concrete pins with fuel cells

**Smooth shank galvanised pins for concrete applications**

## Certificate

CE

## Product information

### Features and benefits

- Ballistic point increases performance into the base material. This special design is responsible for providing best load bearing values for this type of fixing

- Smooth shank and toughness of 57 - 60 HRC provides great penetration ability and give best result in hard substrates

- Plastic collation provides protection from deterioration by weather conditions or high humidity

- Compatible with leading manufactures tools present on the marketplace

- Full round head for a secure fixing with highest performance

### Applications

- Fixing steel or aluminium profiles into concrete in drywall systems

- Fixing electrical boxes, sanitary ware, cable trunking, etc.

- Cable conduits and wires installation

# RAWLPLUG® M&E CONSUMABLES

**Rawlplug presents a novelty in its offer - a range of clips for pipes and cables and installation accessories.**

Rawlplug introduces new range of installation accessories. The range is strictly designed to work with Rawlplug's gas powered steel and concrete tool - SC40. Range of pipe and cable clips covers majority of building and industrial applications.

Trades which can benefit from using the system are Electricians, Plumbers, drywall layers and HVAC fitters. Almost all of the product from the range is compatible with most common tools available on the market.

# R-PCC Pipe and cable clip

**Universal installation clips appcliable to majority of M&E applications**

## Certificate

**RoHS**  kiwa

## Product information

## Features and benefits

- The clip allows to use it in multiple applications thanks to adjustable diameter

- Equiped with countersink cavity allowing to place it firmly onto the nose piece of the tool and perform one hand over head installation

- The clip made out of recyclable PA6 provides sustainability

- Possibility to use the clip for hot water pipes thanks to special groove in the clip base and an installation railing

- Suitable for installing metric, copper, steel, multilayer, PE, PP, PB and stainles pipes

- Product compatible with majority of the gas powered tools available on the market, which allows to match accessories with your equipment

## Applications

- Fixing pipes and cables in HVAC systems

- Installing cables in pipes and corrugated conduits

- Installation of metal and plastic pipes in all pipework installations

## Corresponding products

- R-RAWL-SC40II Steel and concrete nailer

- R-KNC plastic collated concrete pins with fuel cells

- R-KSC plastic collated pins for steel with fuel cells

# R-UTC Pipe and cable plastic clip

**Plastic brackets for pipes and conduits for applications in electrical installations, water and sewage systems, and HVAC**

## Certificate

### RoHS

## Product information

### Features and benefits

- Easy to install with the possibility of setting on the tool nose piece
- Possibility of joining clips in larger sections with special locks on the sides of the handle
- Can be used in heating systems using installation rail
- Special socket design ensures compatibility with most nail guns available on the market
- The range of the offer provides the ability to handle most plumbing applications
- The hole in the base allows mounting the bracket using the traditional method

### Applications

- Installing cables in pipes and corrugated conduits
- Fixing pipes and cables in HVAC systems
- Pipe installation in plumbing

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells
- R-KSC plastic collated pins for steel with fuel cells
- R-RAWL-SC40II Steel and concrete nailer

### Base materials

- Concrete C20/25-C50/60
- Concrete Slab
- Unreinforced concrete
- Structural Steel

# R-TPC Plastic clip for twin and earth cable

**Plastic clip for installing 17mm twin and earth cable**

## Certificate

## RoHS

## Product information

### Features and benefits

- Side snap-in installation provides the possibility of rerouting if necessary
- Equiped with countersink cavity allowing to place it firmly onto the nose piece of the tool and perform one hand over head installation
- Side snap-in installation provides the possibility of rerouting if necessary
- Manufactured in accordance to RoHS from halogene free PA6
- Applicable for electrical installations on technical floors, walls and ceilings
- Product compatible with majority of the gas powered tools available on the market, which allows to match accessories with your equipment
- High durability provided by the use of impact-resistant polyamide

### Applications

- Installing twin and earth cable with plastic clip for gas nailer

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells
- R-KSC plastic collated pins for steel with fuel cells
- R-RAWL-SC40II Steel and concrete nailer

### Base materials

- Concrete C20/25-C50/60
- Hollow LightWeight Concrete Block
- LightWeight Concrete Block
- Cracked Concrete
- Solid Concrete Block

# R-TPLC Plastic clip for twin and earth cable

## Plastic clip for installing twin and earth cable

## Certificate
### RoHS

## Product information

### Features and benefits

- Equiped with countersink cavity allowing to place it firmly onto the nose piece of the tool and perform one hand over head installation

- Manufactured in accordance to RoHS from halogene free PA6

- Applicable for electrical installations on technical floors, walls and ceilings

- Product compatible with majority of the gas powered tools available on the market, which allows to match accessories with your equipment

- Quick assembly with the use of gas nailer is an cost effective alternative to all other installation methods

### Applications

- Installation of twin and earth flat cables of width up to 25.5mm using a SC40 gas nailer

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells

- R-KSC plastic collated pins for steel with fuel cells

- R-RAWL-SC40II Steel and concrete nailer

### Base materials

- Concrete C20/25-C50/60

# R-AW Thrust metal washer

**Steel thrust washer for installation applications.**

## Certificate

### RoHS

## Product information

### Features and benefits

- Plastic instert allowes to place it in the nose piece and operate with one hand overhead

- A minimum of 5 micron zinc plating for optimal corrosion protection

- Washers available in two diameters 15 and 25mm for best performance in any application

- Product compatible with most of the gas tools available on the market which allows matching accesories with your equipment

- Plastic insert made out of recyclable HDPE

- A wide range of applications reached, thanks to large pressure surface. Especially important when securing elements made out of plastic

### Applications

- Fixing steel or aluminium profiles into concrete in drywall systems

- Fixing electrical boxes, sanitary ware, cable trunking, etc.

- Fastening plastic elements liable to damage while installing

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells

- R-KSC plastic collated pins for steel with fuel cells

- R-RAWL-SC40II Steel and concrete nailer

### Base materials

- Concrete C20/25-C50/60

- Concrete Slab

- Unreinforced concrete

# R-FPD Double plastic clip

## Double plastic clip for MEP applications

## Product information

### Features and benefits

- Designed to be used for fixing installation pipes ex. underfloor heating

- Applicable for electrical installations on technical floors, walls and ceilings

- Manufactured in accordance to RoHS from halogene free PA6

- Product compatible with majority of the gas powered tools available on the market, which allows to match accessories with your equipment

- Thanks to its special design, it provides secure fixing of installed parts

- Special slot for tools nose peice provides good positioning and precision of fixing

### Applications

- Pipework installation

- Underfloor heating installation

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells

- R-KSC plastic collated pins for steel with fuel cells

- R-RAWL-SC40II Steel and con-crete nailer

### Base materials

# R-PFT Single metal clip for low voltage fire protection systems

**Single metal clip for low voltage electric installations**

## Certificate
**RoHS**

## Product information

### Features and benefits

- With its special design and issued certificates it is dedicated to fasten low-voltage installations, e.g. CCTV, alarm or fire protection systems

- Proven to provide full functionality of the fire resistant cable up to maximum required time(120 min)

- A minimum of 5 microns of zinc coating for better corrosion protection

- Equiped with plastic insert allowing to place it firmly in the nose piece of the tool and perform one hand over head installation

- Product compatible with most of the gas tools available on the market which allows matching accesories with your equipment

### Applications

- Installation of low voltage cables in alrm, CCTV, IT and fire protection systems

# R-FT Single metal clip for pipe installation

## Single metal clip for MEP applications

## Product information

### Features and benefits

- A clip designed to be used with SC40 gas nailer equiped with magnetic nose tip allowing to operate with one hand overhead

- Wide range of available diameters allows to select ideal clip for each application. Suitable for installation of metric, imperial(inch), copper, multilayer, PE, PP, PB and stainless pipes

- A minimum of 5 microns of zinc coating for better corrosion protection

- Single metal clip for pipe installation ensures cost savings and time effectiveness

- Product compatible with most of the gas tools available on the market which allows matching accesories with your equipment

### Applications

- Pipe installation in plumbing

- Fixing pipes and cables in HVAC systems

- Installing cables in pipes and corrugated conduits

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells

# R-WDC Double cable bow

**Double plastic cable bow for wiring and electrical installations**
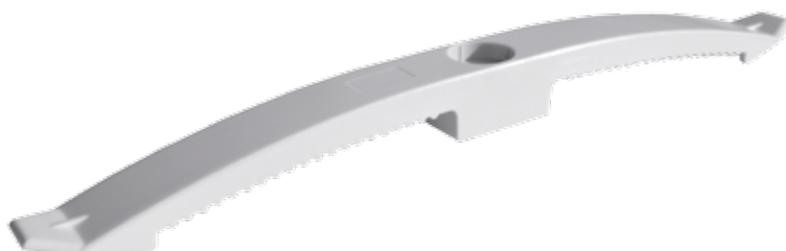

## Certificate
**RoHS**

## Product information

### Features and benefits

- Thanks to special design it is possible to expand or reduce the number of cables without dismantleing the clip
- Precise fixing thanks to pre-moulded markers on the base of the clasp
- Product compatible with most of the gas tools available on the market which allows matching accesories with your equipment
- Applicable for electrical installations on technical floors, walls and ceilings
- Eqiped with a special socket for tools nose piece for one-hand operation overhead

### Applications

- Installation of cables in industrial and commercial applications, where frequent rerouting is expected

### Corresponding products

- R-KNC plastic collated concrete pins with fuel cells
- R-KSC plastic collated pins for steel with fuel cells
- R-RAWL-SC40II Steel and concrete nailer

# R-RAWL-RB3908 Rebar tier wire

**Galvanised tie wire for R-RAWL-RB39 rebar tier for joining rebar reinforcing structures**

## Certificate

$C\epsilon$

## Product information

## Features and benefits

- Electro galvanised wire provides high corrosion protection of each individual tie

- Depending on the tool settings the coil lasts for 120/150 knots which reduces reload time

- Detailed design and manufacturing process ensures stability of parameters and performance

- Easy to dispose plastic part of the coil - with no additional parts is 100% recyclable

## Applications

- Dedicated to use with R-RAWL-RB39 rebar tier

- Commercial and private building industry, infrastructure projects

- Prefabricated reinforced concrete elements

## Corresponding products

- R-RAWL-RB39 Rebar tier

# R-KSC Plastic collated pins for steel with fuel cells

## Smooth shank galvanised pins for lightWeight steel applications

### Certificate
CE

## Product information

### Features and benefits

- Ballistic point increases performance into the base material. This special design is responsible for providing best load bearing values for this type of fixing

- Smooth shank and toughness of 57 - 60 HRC provides great penetration ability and give best result in hard substrates

- Plastic collation provides protection from deterioration by weather conditions or high humidity

- Compatible with leading manufactures tools present on the marketplace

- Full round head for a secure fixing with the highest perfomance acheived

### Applications

- Fixing steel profiles into concrete in drywall systems

- Fixing electrical boxes, sanitary ware, cable trunking, etc.

- Cable conduits and wires installation

### Base materials

- Structural Steel

### Corresponding products

- R-RAWL-SC40II Steel and concrete nailer

# SP-AM-11 Cartridge shots

## Powder cartridges for PAT systems

### Certificate

CE
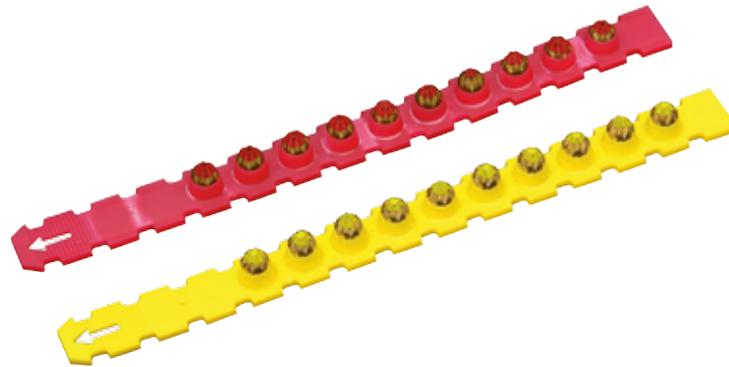

## Product information

### Features and benefits

- Product free of led and other heavy metals which ensures safety in terms of health hazards.

- Clean combustion technology guarantees lack of residue in the tool.

- Easy disposal thanks to simple composition.

- Designed to be compatible with all of the strip-type powder tools available on the marketplace.

- Two strength level allow for precise adjustment of drive energy.

### Applications

- Propulsion powder actuated tools

- Installing railing, formwork, installations and temporary fixings.

### Base materials

- Concrete C20/25-C50/60

- Concrete Slab

- Unreinforced concrete

- Non-cracked Concrete

# RAWLPLUG® GAS POWERED TOOLS FOR TIMBER

**If you have a requirement for fixing timber to timber, rawlplug has a range of professional tools for the job.**

Rawlplug offers a proffesional range of gas powered nailers characterised by high quality and proven performance.

The range consists of first fix timber framing nailer, two second fix brad nailers, gas powered joist hanger nailer and steel and concrete nailer for drywall and electrical applications.

All of the tools are equipped with high efficiency batteries, carry cases and safety accessories. Thanks to broad range of consumables and accessories any professional application can be made easier and quicker.

# R-RAWL-WW90CH Gas powered framing nailer

**High performance gas powered framing nailer for timber framing and roofing applications**

## Certificate
CE

## Product information

### Features and benefits

- Nail range from 50mm to 90mm for wide range of applications

- Removable no mark nose for protecting the timber surface. Especially important when securing timber cladding or facades

- Sequential firing mode for operators safety and fixing precision

- Rear loading magazine with a capacity of 60 nails. Quick and simple to load thanks to one hand operation feeder spring. A safety clip at the rear prevents the nails from falling out and ensures safe reloading

- Tool free depth adjustment. The operator can easily adjust the depth that the nail is driven into timber to produce a precise fixing

### Applications

- Timber frame stud work in timber framing industry

- Installation of battens and sheating in roof construction

- Installation of soffits and other roof finishing elements

### Corresponding products

- R-DPG paper collated nails with fuel cells

- R-DRG paper collated nails with fuel cells

- R-DPK paper collated nails with fuel cells

# R-RAWL-GMC38 Gas powered joist hanger nailer

**Efficient and durable gas powered metal connectors nailer**

## Certificate
CE

## Product information

### Features and benefits

- Nail range from 35 to 60mm provides broad range of applications

- Sequential firing mode for operators safety and fixing precision

- Nose with probe mechanism tip locates in the pre-drilled hole for a precise and quick fixing. Easy to operate even in limited access areas

- Capable of accepting both paper and plastic collated nails for freedom of choice

- Rear loading magazine with a capacity of 60 nails. Quick and simple to load thanks to one hand operation feeder spring. A safety clip at the rear prevents the nails from falling out and ensures safe reloading

### Applications

- Installation of all types of metal connectors

- Installation of truss supports and angled joints

- Installation of perforated steel tapes

### Corresponding products

- R-RAWL-GP1

# R-RAWL-A2064 Gas powered second fix nailer

## Gas powered angled brad nailer for all second fix applications

## Certificate

CE

## Product information

### Features and benefits

- 16 gauge Brad range from 32mm to 64mm for broad range of applications

- Tool free depth adjustment. The operator can easily adjust the depth that the nail is driven into timber to produce a precise fixing

- Quick release mechanism for clearing obstructions and jams without the use of any tools. Allows also to perform simple maintenance

- Removable no mark nose for protecting the timber surface. Especially important in all second fix applications in which undamaged elements will be visible. A spare nose tip cover is stored on the back of the magazine

- LED display for monitoring battery status and preventing battery depletion

### Applications

- Installation of wooden facades

- Installation of soffits and other roof finishing elements

- Installation of skirting, architraves and other internal trim

- Manufacturing of furniture, wooden packaging and timber trim

### Corresponding products

# RAWLPLUG® NAILS
# AND CONSUMABLES

**Our goal is to supply high quality products which will satisfy investors and broaden the confidence that is associated with the Rawlplug brand.**

We are constantly conducting technical studies and tests in order to align our products in accordance and exceeding industry and European standards. Our salt spray test ensures that a high anti corrosive protection is applied to our nails. Load bearing and pull out performance is measured with the latest apparatus in the industry.

As a result of constant investment in our production facility we are expanding our business throughout the world.

# Clipped head, paper collated nails with fuel cells

**Paper collated nails in various finishes and coatings offer number of options in all timber related applications**

## Certificate

CE

## Product information

### Features and benefits

- 34° angle collation with a clipped head ensures the nail is compatible with all leading manufactures tools

- Special coating at the base of the shank improves the drive of the nail and ensures a secure fixing

- Diamond point prevents the timber from splitting

- Waxed paper collation avoids deterioration in wet conditions

- Paper tape collation ensures that no collating material is left on the work site

- Minimum of 10 microns zinc coating provides great corrosion protection

- Depending on the quantity of nails box contains 1, 2 or 3 fuel cells

### Applications

- Timber frame stud work in timber framing industry

- Installation of battens and sheating in roof construction

- Installation of soffits and other roof finishing elements

- Installation of wooden facades

### Corresponding products

- R-RAWL-WW90CH Gas powered framing nailer

# R-HDGT-3838 Paper collated joist hanger nails

**Twist shank galvanised nails for metal connectors applications**

## Certificate

CE

## Product information

### Features and benefits

- 34° angle collation with a clipped head ensures the nail is compatible with all leading manufactures tools

- Waxed paper collation avoids deterioration in wet conditions

- Paper tape collation ensures that no collating material is left on the work site

- Diamond point prevents the timber from splitting

- Twisted shank eases driving the nail into timber and provides better performance

- Full round head provides a secure fixing and high pull through value

- Tapered shank at the nail head provides tight fitting of the metal connector

### Applications

- Fixing all types of metal wood conectors

### Base materials

- Timber

- Plywood

- Wood

### Packaging

# Straight brad nails

## 16 gauge straight brad nails for all second fix applications

## Product information

### Features and benefits

- Smooth nail shank for low penetration resistance
- Chisel point to prevent timber from splitting
- T type head provides a concealed fixing
- The glue laminated collation ensures a lack of residue in the tool and on the work surface
- Available in galvanised or stainless steel for higher corrosion protection
- Compatible with all leading manufactures 16ga tools

### Applications

- Installation of woodan facades and other external trim applications
- Installation of soffits and other roof finishing elements
- Installation of timber decorative elements on facades and other timber structures

### Corresponding products

- R-RAWL-B1664 Gas powered second fix nailer

### Base materials

- Timber
- Plywood
- Chipboard
- Wood

# Angled brad nails

## 16 gauge angled brad nails for all second fix applications

## Product information

### Features and benefits

- Smooth nail shank for low penetration resistance
- Chisel point to prevent timber from splitting
- T type head provides a concealed fixing
- The glue laminated collation ensures a lack of residue in the tool and on the work surface
- Available in galvanised or stainless steel for higher corrosion protection
- Compatible with all leading manufactures 16ga tools

### Applications

- Installation of woodan facades and other external trim applications
- Installation of soffits and other roof finishing elements
- Installation of timber decorative elements on facades and other timber structures

### Corresponding products

- R-RAWL-A2064 Gas powered second fix nailer

### Base materials

- Timber
- Plywood
- Chipboard
- Wood

# RAWLPLUG® FUEL CELLS

**Clean combustion fuel cells for gas powered tools provide lack of any residual substances and high power output.**

Full synthetic oil added to the fuel provides lubrication and protects the tools from excessive wear.

# R-RAWL-GP1 Fuel cell

## Fuel cell for use in R-RAWL-WW90CH gas powered nailer

## Product information

### Features and benefits

- Clean Propane & Butane mixture reduces carbon residue

- High quality propellant for increased performance

- Contains a fully synthetic oil for lubricating the tool

- Functions from -5°C to 35°C to elongate the work site capability of the system

- Compatible with leading manufactures tools

### Applications

- Powering gas powered timber framing nailers

### Corresponding products

- R-RAWL-WW90CH Gas powered framing nailer

## Product commercial data

# R-KIT-WW90/SC40

**Cleaning kit for gas powered tools.**

## Product information

### Features and benefits

- Contains cleaning detergent, lubricating oil, cloth, gloves and cleaning guide for gas tools
- Allows to perform a standard cleaning and maintenance of the tool
- Provide send user with means to keep the tools in perfect working conditions
- The kit is not included with the tool.

### Applications

- Maintenance and basic service of gas powered tools
- Wooden pallets and packaging manufacturing

### Corresponding products

- R-RAWL-WW90CH Gas powered framing nailer
- R-RAWL-SC40II Gas powered steel and concrete nailer

## Product commercial data

# RAWLPLUG® PNEUMATIC TOOLS

**Coil nailers, strip nailers, roofing nailer, positive placement nailer, steel and concrete nailer**

The wide range of Rawlplug pneumatic nailers have been designed and manufactured to the highest standards. We are constantly focused on delivering performance tools that can be used in the construction industry. All of our tools are CE certified.

# R-RAWL-PN-3490 Pneumatic framing nailer

**Pneumatic paper strip nailer for timber framing, roofing and other timber applications**

## Certificate

CE

## Product information

### Features and benefits

- Nail range from 50mm to 90mm for wide range of applications

- Adjustable exhaust port is an improtant safety feature when operating in areas where other persons amy be affected by the exhausted air and particles

- Depth of drive adjustment provides fine tuning installation depth in an type of substrate material and application

- Removable no mark nose for protecting the timber surface. Especially important when securing timber cladding or facades

- More powerfull than gas powered equivalent of the same specification. Up to 10% more power ensures outstanding performance in all applications and timber types

### Applications

- Timber frame stud work in timber framing industry

- Installation of battens and sheating in roof construction

- Installation of wooden facades

- Installation of timber flooring and terraces

### Corresponding products

- SPG-DPK paper collated nails nails without fuel cells

- SPG-DRG paper collated nails nails without fuel cells

- SPG-DRK paper collated nails nails without fuel cells

**Smooth shank galvanised nails for timber framing, roofing and other timber applications**

## Certificate
CE

## Product information

### Features and benefits
- 34° angle collation with a clipped head ensures the nail is compatible with all leading manufactures tools
- Waxed paper collation avoids deterioration in wet conditions
- Paper tape collation ensures that no collating material is left on the work site
- Special coating at the base of the shank improves the drive of the nail and ensures a secure fixing
- Diamond point prevents the timber from splitting
- Minimum of 10 microns zinc coating provides great corrosion protection
- A wide variety of combinations of nail coatings and finishes allows everyone to find the right solution for a particular application

### Applications
- Timber frame stud work in timber framing industry
- Installation of battens and sheating in roof construction
- Installation of soffits and other roof finishing elements
- Installation of wooden facades

# R-RAWL-PNP-130 Pneumatic framing nailer

**Pneumatic plastic strip nailer for timber framing, roofing and other timber applications**

## Certificate

C E

## Product information

### Features and benefits

- Nail range from 90mm to 130 mm widens the range of typical applications

- Removable no mark nose for protecting the timber surface. Especially important when securing timber cladding or facades

- Magazine capacity of 50 nails provides less time needed for reloading

- Adjustable exhaust port is an improtant safety feature when operating in areas where other persons amy be affected by the exhausted air and particles

- Depth adjustment allows the operator to easily adjust the deptj that the nail is driven into timber to produce a precise and secure fixing

- Simplicity of tool design ensures low maintenance and high reliability

### Applications

- Timber frame stud work in timber framing industry

- Installation of battens and sheating in roof construction

- Installation of wooden facades

- Manufacturing of timber standarised structure like Timber frame houses or roof elements

### Corresponding products

- R-GPG plastic collated nails

- R-RAWL-C50 or C50-10 Oil lubricated compressor

- R-RAWL-C100-P Oil lubricated compressor

# R-RAWL-PN Pneumatic coil nailers

## Pneumatic coil nailer for manufacturing pallets, wooden packaging and othe timber product

### Certificate

CE

## Product information

### Features and benefits

- Nail range from 25mm to 57mm widens the range of typical applications

- Adjustable exhaust port is an improtant safety feature when operating in areas where other persons amy be affected by the exhausted air and particles

- Ergonomic design and well balanace for higher comfort of daily use and reduced risk of injury

- Nail cover from magazine to nose for safety of operation

- Very low recoil value provides great improvement in operators comfort of using the tool

- Magazine capacity up to 400 nails significantly reduces reload time

### Applications

- Manufacturing pallets, packaging and external trim

- Installation of timber flooring and terraces

### Corresponding products

- R-GDP wire collated nails

- R-RAWL-C50 Oil lubricated compressor

- R-RAWL-C24 Oil lubricated compressor

# R-RAWL-PRN-45 Pneumatic roofing nailer

**Pneumatic coil nailer for manufacturing pallets, wooden packaging and othe timber product**

## Certificate

CE

## Product information

### Features and benefits

- Nail range from 22mm to 45mm provides wide range of application
- Very low recoil value provides great improvement in operators comfort of using the tool
- Tool free depth adjustment. The operator can easily adjust the depth that the nail is driven into timber to produce a precise fixing
- Ergonomic design and well balance for higher comfort of daily use and reduced risk of injury
- Extremely lightWeight and manouverable which is an advantege when operating in areas with limited access
- Guide plate ensures the perpendicularity of the tool against the roof surface

### Applications

- Installation of felt roofing
- Installation of roofing foil and breather membranes

### Corresponding products

- R-RAWL-C50 Oil lubricated compressor
- R-RAWL-C50-10 oil lubricated air compressor

### Base materials

- Timber
- Plywood
- Wood
- Chipboard

### Set includes

- R-RAWL-PRN-45 Pneumatic roofing nailer
- Spare gasket set
- Operating and Safety manual
- Safety glasses

# RAWLPLUG® COMPRESSORS

**The Rawlplug compressor range was meticulously developed to align with our pneumatic tools.**

Our compressors are designed for both DIY and semi-professional use. All models benefit from easy-start motors, simple to adjust regulators, quick-release air coupling and readily accessible drain valves. Using the highest quality parts in the manufacture of each unit ensures our equipment is powerful, compact and extremely reliable and efficient

# R-RAWL-C100-P Oil lubricated compressor

**100 litre tank portable air compressor for professional and industrial applications**

## Certificate
CE

## Product information

### Features and benefits

- Best quality electronic components ensure stable working conditions and low operating cost
- Brushless motor with a power of 3 HP provides the best performance and low maintenance. Brushless technology is the most reliable drive type used in powertools and mobile equipment providing low damage risk and maintenance cost
- Oil lubricated pump with direct drive provides high performance and stable operation of the compressor
- Built in intake filter to avoid damage in transport and storage
- Robust wheels and additional rubber feet for better stability

### Applications

- Powering nailers, wrenches and other pneumatic tools
- Suitable for all applications requiring increased amount of compressed air
- Proffesional and industrial applications like powering torque wrenches or high power nailers

### Corresponding products

- R-RAWL-PMC-38 Pneumatic joist hanger nailer
- R-RAWL-PN-3490 Pneumatic framing nailer
- R-RAWL-PN-57 Pneumatic coil nailer

## Certificate

CE

## Product information

## Features and benefits

- Best quality electronic components ensure stable working conditions and low operating cost
- Brushless motor with a power of 2,5 HP provides the best performance and low maintenance. Brushless technology is the most reliable drive type used in powe rtools and mobile equipment providing low damage risk and maintenance cost
- Oil lubricated pump with direct drive provides high performance and stable operation of the compressor
- Built in intake filter to avoid damage in transport and storage
- Robust wheels and additional rubber feet for better stability
- Stabile output air parameters thanks to tank pressure manometer and precise pressure adjust regulator
- Provides high efficiency thanks to durable 10 Bar max pressure pump and double standard 3/8" quick coupling
- High efficiency pump and durable design can be used to power more than one tool at the same time

## Applications

- Powering nailers, wrenches and other pneumatic tools
- Suitable for all applications requiring increased amount of compressed air
- Proffesional and industrial applications like powering torque wrenches or high power nailers

# R-RAWL-C24 Oil lubricated compressor

**24 Litre tank portable air compressor for semi proffesional and DIY applications**

## Certificate

CE

## Product information

### Features and benefits

- Best quality electronic components ensure stable working conditions and low operating cost

- Brushless motor with a power of 2.25 HP. Brushless technology is the most reliable drive type used in powe rtools and mobile equipment providing low damage risk and maintenance cost

- Oil lubricated pump with direct drive provides high performance and stable operation of the compressor

- Built in intake filter to avoid damage in transport and storage. The design prevents the most frequent type of damage and reduces service cost

- Robust wheels and additional rubber feet for better stability

### Applications

- Powering nailers, wrenches and other pneumatic tools

- DIY, craftsman and hobby applications

- Dedicated to DIY applications like inflating bike or car tires

### Corresponding products

- R-RAWL-PN-3490 Pneumatic framing nailer

- R-RAWL-PSC40 Pneumatic steel and concrete nailer

- R-RAWL-PMC-38 Pneumatic joist hanger nailer

### Set includes

- R-RAWL-C24 Oil lubricated compressor

- Operating and Safety manual

# R-RAWL-C6 Oil free compressor

## 6 Litre tank portable air compressor for hobby and DIY applications

## Certificate

CE

## Product information

## Features and benefits

- Brushless motor with a power of 2.25 HP. Brushless technology is the most reliable drive type used in powe rtools and mobile equipment providing low damage risk and maintenance cost

- Ol free pump ensures outstanding perfomance in any working conditions. Thanks to the oil free solution the device is able to work in any place and position. It is also safe to transport providing lack of leaking and environmental hazard

- Built in intake filter to avoid damage in transport and storage

- Extremely lightWeight and portable. Low Weight and compact design allows for using the device in most inaccessible areas comfprtably and with providing high level of safety.

## Applications

- Supplying compressed air for small stapler and nailing guns

- DIY, craftsman and hobby applications

- Dedicated to DIY applications like inflating bike or car tires

## Set includes

- R-RAWL-C6 Oil free compressor

- Operating and Safety manual

# RAWLPLUG® STAPLERS

The wide range of Rawlplug staplers allows you to choose the perfect stapler for specific work. The most vital characteristics and features are: ergonomic shapes, ease of use and structural firmness.

In addition, all our staplers are free of any maintenance requirements, ensuring fast and precise work with a variety of materials - perfect for both heavy finishing works and decorative works that do not require heavy a workload.

# RT-KGR0010 Hand stapler – Trade, 6-10 mm

**Lightweight stapler for flat wire staples; Professional line; Type 140; 6-10 mm**

## Product information

### Features and benefits

- Steel body for increased impact resistance
- Folding handle for easy transportation
- Two-component non-slip handle increases productivity and comfort
- Bottom cartridge belt with clip lock allows for the quick reloading of staples
- A view on the staple count allows you to quickly check the number of staples in the clip
- Flat spring prolongs life and reduces recoil
- „Try me" packaging allows free access to all the features

### Applications

- Designed for difficult tasks
- Used for upholstery and decorative work

### Base materials

- Chipboard
- Fabric
- Oriented Strand Board
- Wood
- Timber
- Plastic

# RT-KGR0034 Hand stapler – Compact 3 in 1, 6-14 mm

**Compact stapler for fine wire staples, Universal line Type 53, 6-14 mm**

## Product information

### Features and benefits

- Compact steel body for increased impact resistance
- Two-step adjustable punching force allows for adjusting the driving force to the type of material
- Folding handle for easy transport
- Two-component non-slip handle increases productivity and comfort
- Bottom cartridge belt with clip lock allows for the quick reloading of staples
- A view on the staple count allows you to quickly check the number of staples in the clip
- Flat spring prolongs life and reduces recoil
- „Try me" packaging allows free access to all the features

### Corresponding products

- RT-KSS00814 RL8 Nails 14 mm
- RT-KSS00914 RL9 Pins 14 mm
- RT-KSS53 Staples RL 53

### Applications

- Designed for difficult tasks that require comprehensive tools, offering both stapling and nailing
- Used for upholstery and decorative work

### Base materials

- Laminate
- Plastic
- Plywood
- Timber
- Wood
- Fabric

# RT-KGR0053 Hand stapler – Easy squeeze, 6-10 mm

**Lightweight stapler for fine wire staples, suitable for home decorating; Universal line; Type 53; 6-10 mm**

**3 YEARS WARRANTY**

## Product information

### Features and benefits

- Folding handle for easy transportation
- Bottom cartridge belt with clip lock allows for the quick reloading of staples
- A view on the staple count allows you to quickly check the number of staples in the clip
- Flat spring prolongs life and reduces recoil
- „Try me" packaging allows free access to all the features
- ABS body, lightweight impact-resistant housing

### Applications

- Used for upholstery and decorative work
- For office use

# RT-KGR0055 Hand stapler – Office, 6-10 mm

**Lightweight stapler for fine wire staples, suitable for office use; Universal line; Type 53; 6-10 mm**

## Product information

### Features and benefits

- A special stand makes it possible to use as an office stapler
- Folding handle for easy transportation
- Bottom cartridge belt with clip lock allows for the quick reloading of staples
- A view on the staple count allows you to quickly check the number of staples in the clip
- ABS body, lightweight impact-resistant housing
- Flat spring prolongs life and reduces recoil
- „Try me" packaging allows free access to all the features

### Applications

- Used for office jobs, upholstery and decorative work

# RT-KGR0162 Hand stapler, 6in1 heavy duty

**Durable and comfortable stapler for various applications**

## Product information

### Features and benefits

- Compact aluminium body for increased impact resistance

- Two position driving force adjustment allows to precisely set the depth of the staple in various materials

- Folding handle for easy transport

- Two-component non-slip handle increases productivity and comfort

- Bottom cartridge belt with clip lock allows for the quick reloading of staples

- A view on the staple count allows you to quickly check the number of staples in the clip

- Flat spring prolongs life and reduces recoil

- „Try me" packaging allows free access to all the features

# RT-KSS53 Staples RL 53

**The most popular fine wire staples; Universal line;
Type 53; Ideal for working with textiles**

## Product information

### Features and benefits

- Galvanized corrosion-resistant surface

- Made of tempered wire, it is not bent whenapplied to hard surfaces

- Narrow staple with a thickness 0.75 mm, notvisible while fixing fabric and carpets

### Applications

- Narrow staple for decorativeand upholstery work

### Base materials

- Chipboard
- Fabric
- Exotic Wood
- Oriented Strand Board
- Timber
- Wood

### Corresponding products

- RT-KGR0029 Hand stapler - Powerful easy shot 3 in 1, 6-14 mm

- RT-KGR0030 Hand stapler - Easy shot 3 in 1, 6-14 mm

- RT-KGR0031 Hand stapler - 3 in 1, 6-14 mm

# RT-KSS140 Staples RL 140

**Flat wire staples; Professional line; Type 140; Ideal for working with insulation material and thin plastic**

## Product information

### Features and benefits

- Wide 1.25mm flat wire staple provides lack of damages whist installing delicate materials

- Made of tempered wire, it is not bent when applied to hard surfaces

- Galvanized or stainless steel corrosion-resistant surface

### Applications

- Professional wide staple for roofers designed for repairs and construction work

### Base materials

- Exotic Wood
- Oriented Strand Board
- Plasterboard
- Timber
- Wood
- Plywood

### Corresponding products

- RT-KGR0011 Hammer Tacker, 6-10 mm

- RT-KGR0014 Hand stapler - Trade, 6-10 mm

# RAWLPLUG® GLUE GUNS

Rawlplug® glue guns are known for their high quality and modern design solutions, providing comfortable work and high performance through a fast dual heater system that reduces the warm-up time.

The use of special tips prevents an uncontrolled flow of adhesive during operation. All our guns can be used in work where speed and precision are important.

# RT-GG-180 Professional glue gun 180W

## A durable glue gun with fast warm-up and high efficiency

**3 YEARS WARRANTY**

**Certificate**
CE

## Product information

### Features and benefits

- Designed for 11-12 mm adhesives
- Mechanical feeding of adhesive with adjustable trigger stroke allows for precise adjustment of the glue feed
- Balance hook keeps the gun nozzle down when the gun is hanging loose
- 4-finger trigger ensures precise glue application
- The switch provides more security and com- fort of use
- The dual heating system ensures a very short  warm-up time and high performance
- Replaceable nozzles for different operating modes
- The wide stand ensures a very stable position when the gun is not in use

# RAWLPLUG® GLUE STICKS

The Rawlplug® brand offers a wide range of glue sticks for hot applications.
All our adhesives guarantee durable and strong connections, across various materials,
thanks to the toxin-free, high resin content included.
We provide a wide range of products of different sizes and colors, meeting the needs of
both professionals and DIYs.

# RAWLPLUG®

# RT-GS-U Universal glue sticks

**Universal glue sticks for bonding the majority of commercially available materials**
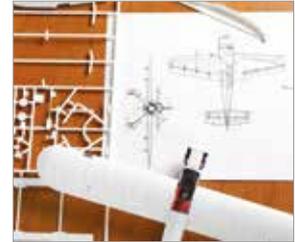

## Product information

### Features and benefits

- The 12 mm diameter allows the adhesive to be used in most adhesive guns available on the market
- Short curing time, 30-35 seconds, allows for quick work
- The length of 200 mm allows for a longer operating time on one glue stick
- The length of 100 mm allows for gluing in hard to reach places
- Transparent adhesive allows applying in many areas and layers
- Does not emit odor while working
- Resistant to temperature of -5°C, enabling operation at low temperatures
- Melting temperature of 170-210°C

### Applications

- Universal glue sticks for bonding the majority of commercially available materials

### Base materials

- Cardboard
- Plastic
- Wood

# RT-GS-C Glue sticks for bonding cardboard

## Glue sticks for bonding cardboard and paper surfaces

## Product information

### Features and benefits

- The 12mm diameter allows the adhesive to be used in most adhesive guns available on the market
- Very short curing time, 8-12 seconds, allowing for quick work
- The length of 200 mm allows for a longer operating time on one glue stick
- Milky color of adhesive allows applying in many areas
- Does not emit odor while working
- Resistance to temperature of 0°C, enabling operations at low temperatures
- Melting temperature of 170-210°C

### Applications

# RT-GS-W Glue sticks for bonding wood

**Glue sticks for bonding surfaces of wood, wood-based materials and leather**

## Product information

### Features and benefits

- The 12 mm diameter allows the adhesive to be used in most adhesive guns available on the market
- Short curing time, 30-35 seconds, allows for quick work
- The length of 200 mm allows for a longer operating time on one glue stick
- Honey color of adhesive allows applying in many areas and layers
- Does not emit odor while working
- Resistant to temperature of -5°C, enabling operation at low temperatures
- Melting temperature of 170-210°C

### Applications

- For bonding wood surfaces, wood-based materials and leather

### Base materials

- Wood
- Plywood
- Chipboard
- Oriented Strand Board

### Corresponding products

- RT-GG-055 Glue gun 55W
- RT-GG-080 Universal glue gun 80W
- RT-GG-180 Professional glue gun 180W

# RT-GS-S Glue sticks for sanitary use

Glue sticks for bonding sanitary materials and products, e.g. appliances, tiles and plastic materials and cables

## Product information

### Features and benefits

- The white color of the adhesive is ideally suited for use in a sanitary environment
- The 12 mm diameter allows the adhesive to be used in most adhesive guns available on the market
- Short curing time, 25-30 seconds, allows for quick work
- Does not emit odor while working
- The length of 200 mm allows for a longer operating time on one glue stick
- Resistant to temperature of 0°C, enabling operation at low temperatures
- Melting temperature of 170-210°C

### Applications

- For bonding sanitary materials and products, e.g. appliances, tiles and plastic materials and cables

### Base materials

- Sanitary ceramics
- Ceramics
- Plastic

### Corresponding products

- RT-GG-055 Glue gun 55W
- RT-GG-080 Universal glue gun 80W
- RT-GG-180 Professional glue gun 180W

# RT-GS-E Extra strong glue sticks

**Super strong glue sticks designed for gluing together heavy construction materials and metals**
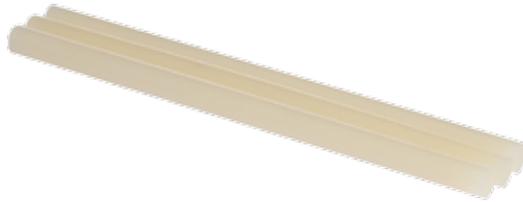

## Product information

### Features and benefits

- The 12mm diameter allows the adhesive to be used in most adhesive guns available on the market
- Short curing time, 35-40 seconds, allows for quick work
- The length of 200 mm allows for a longer operating time on one glue stick
- Honey color of adhesive allows applying in many areas and layers
- Does not emit odor while working
- Resistance to temperature of -15°C, enabling operation at very low temperatures
- Melting temperature of 170-210°C

### Applications

- Super strong glue stick allows gluing together heavy construction materials and metals

### Base materials

- Metal sheet & profiles
- High-density natural stone
- Glass

### Corresponding products

- RT-GG-055 Glue gun 55W
- RT-GG-080 Universal glue gun 80W
- RT-GG-180 Professional glue gun 180W

# RT-GS-M Set of universal and extra strong glue sticks

## A set of universal and super strong glue sticks for bonding different materials

## Product information

### Features and benefits

- The 12 mm diameter allows the adhesive to be used in most adhesive guns available on the market
- Short curing time, 35-40 seconds, allows for quick work
- The length of 200 mm allows for a longer operating time on one glue stick
- Honey and transparent color of adhesive allows applying in many areas and layers
- Does not emit odor while working
- Resistance to temperatures of -15°C, enabling  operation at very low temperatures
- Melting temperature of 170-210°C

### Applications

- A set of universal and super strong glue stick for bonding different materials

# More from Rawlplug

## Efficacy in the hardest conditions
We are proud to present innovative fixing from the *Bonded Anchors and Mechanical Anchors* group designed for the heavy loads demanded by industrial construction. Among our products you will find unique solutions to enable you to achieve maximal amounts with any kind of substrate. Knowledge backed-up with experience guarantees the effectiveness of our fixings and the success of your investment.

## Durability and versatility
Our wide range of expansion plugs made of synthetic materials and metal, for low and medium loads, have been used for years for both industrial and residential construction. Incredibly durable FF1 from frame fixings group, universal in use 4ALL and UNO Plug, no. 1 on the UK market, are leading products of RAWLPLUG®'s offer in the field of *Lightweight Fixings*, designed with every substrate in mind.

## Innovations in Energy Saving construction
As a leading producer of façade insulation fixings we would like to present to you our wide array of products used in energy saving constructions. The Reliability and simplicity of our solutions combined with their ease of installation make them the most popular and desired by professionals. We invite you to familiarize yourselves with our offer for *Façade Insulations Fixings*.

## Excellent resistance for high loads
Thanks to our close cooperation with roof covering product producers, and our insight into the needs of investment contractors, our *Roofing Insulations Fixings* are one of the most popular among European roof fixing system producers. We invite cooperation from engineers, architects, and roof works contractors. And encourage you to try out our calculation software "ROOFIX" today.

## Safety Certificate
Stepping towards the needs of customers, and increasing the general level of safety in closed spaces, we have created a protection system event of which in the combustion prevents fire and smoke from spreading. We invite you to acquaint with our offer for *Passive Fire Protection Systems*, which hold the European Conformity Assessment.

## Guarantee of lasting quality
Thanks to our constant monitoring of the production of assortments from our *Foams, Sealants and Adhesives* range we guarantee the constant and repeatable quality of our products. Their wide range of application possibilities and high efficiency has enabled us to rank among the top 5 of companies in the construction chemistry industry for years.

## Maximal weather resistance
Rawlplug® *Fasteners* guarantee reliability of connections and maximal weather resistance. Our products, thanks to the use of appropriate materials and adoption of modern anticorrosion coating, pass even the hardest tests, matching the expectations of the most demanding clients. In our rich offer of screws characterized by extraordinary ease of installation, one may find perfect kind of connection for any kind of material and substrate.

## Save time and minimize costs
In our offer of *Direct Fastening Systems* you may find, among others, highly effective pneumatically and gas powered nailers with accessories, compressors and an innovative and ergonomic rebar tier. We invite you to familiarize yourselves with the capabilities of Rawlplug® tools, which can significantly increase the comfort and effectiveness of work at any construction site.

## Maximal effect of optimal offer
In order to ease the application and proper use and installation of our products, we supplement the our assortment of fixings with a precisely composed offer of *Power Tool Accessories*. They include, among others, European-made drills of the highest quality, as confirmed with a Sichersafe certificate. We invite you to familiarize yourselves with our offer of accessories for professional installation techniques of the Rawlplug® brand.

## Ergonomics for construction and at home
We offer high-quality *Stapling, Tacking and Gluing* tools that are recommended for both professionals and home DIY. Rawlplug's stapling tools are especially intended for construction, finishing works and repairs while our hot-melt adhesive system includes a new line of glue guns and glues for a wide range of applications - all of which are exceptionally easy to use and provide maximum efficiency and a high degree of flexibility for routine work

## Unique and exclusive exposition
Rawlplug *POS Essential Offer* it is a unique and complete solution designed for product exposition in building wholesale and retail stores. The POS system is based on easily configurable rack components enhanced with expansive information elements and additional decorations, as well as a combination of individual packages in form of innovative Rawlplug Bag and cutting-edge cardboard boxes.
